*"A group of people coming together in a state of presence generates a collective field of great intensity. It not only raises the degree of presence of each member of the group but also helps to free the collective human consciousness from its current state of mind dominance."*

**MOKSHA KULA  
CELEBRATION**

---

*Summer's over – BOO*

*But potluck night at Lakeview is back – YEA*

Kula is a Sanskrit word meaning “an intentional community.” As students, teachers, staff, and friends of the Lakeview Moksha Yoga Center, we have all come together to create an amazing yoga community and we want to take time to celebrate and honor our Kula.

Our fall potluck will include a talent showcase featuring members of the Moksha Community.

So many, many members of the Moksha community have impressive non-yoga talents. They sing, dance, perform magic, write poetry, juggle, hoop, play instruments, do stand up comedy, or mime. So come share your talent and come appreciate the talents of your fellow yogi's.

### **Moksha's Got Talent And Potluck Schedule**
